FACULTY OF HEALTH & MEDICAL SCIENCES
Islamic International Medical College
Islamic International Dental College
The Founder
Late Maj. Gen. Muhammad Zulfiqar Ali Khan TI (M), TBt (R)

An internationally renowned Cardiologist and a medical personality of unquestionable integrity with exceptional caliber. He was founding Chairman of the Islamic International Medical College Trust, a not for Profit educational trust established in 1995. He has to his credit the establishment and smooth running of Armed Forces Institute of Cardiology (AFIC) / National Institute of Heart Diseases (NIHD), Islamic International Medical College Trust, Hearts International Hospital and Pakistan National Heart Association (PANAH).

These Institutions are living tribute to his professional capabilities and administrative skills. His invaluable services for the people of Pakistan, for Armed Forces of Pakistan and for mankind as a whole, particularly in health and education sector, will serve as Beacon of Light for the coming generation.

Vision
To be a premier institute in training & grooming doctors of impeccable professional ability with exacting standards of moral & ethical values, who exercise excellence in providing healthcare & practicing medical sciences and are acclaimed nationally as well as internationally.

Location Map (IIMC & IIDC)  
Islamic International Medical College (IIMC) is pioneer private sector Medical Institute in Northern Pakistan and was established in 1996. IIMC functions as a subsidiary of Islamic International Medical College Trust (IIMC-T) which espouses

“Establishment of State-of-the-Art Educational Institutions with a focus on inculcating Islamic Ethical Values”.

National and International Accreditation:

The College is affiliated with Riphah International University, Islamabad and is recognized by the Pakistan Medical & Dental Council (PM & DC). IIMC is also listed in the WHO directory of accredited medical schools and universities, International Medical Education Directory, USA (IMED), International Institute of Medical Education, USA (IIME) and Foundation for Advancement of International Medical Education and Research (FAIMER).

Nineteen batches of MBBS students have already graduated and are registered with PM & DC. They are taken as valuable addition to coterie of medical professionals both nationally as well as internationally.

Programs

IIMC offers five years basic and clinical training leading to Bachelors in Medicine & Bachelors of Surgery (MBBS). It also offers M. Phil in Anatomy, Physiology, Biochemistry, Pharmacology, Histopathology, Chemical Pathology, Hematology, Molecular Biology, Microbiology, CHPE, DHQPS, MSc Pain Medicine, Diploma in Anesthesiology, MHPE (Master of Health Profession Education), PhD, and Training in Medicine, Surgery, Gynecology & Obstetrics, Pediatrics, Anesthesia, and Physiology for FCPS Part-II is recognized by College of Physicians and Surgeons of Pakistan.
Lieutenant General Prof. Dr. Azhar Rashid (Retd) HI (M), MBBS (KEMC), Diploma Surgery (AFPGMI), FCPS Surgery (CPSP), M.Sc. Defence & Strategic Studies (National Defence University), is an eminent Cardiac Surgeon, who after joining Army rose to become Surgeon General/ Director General Medical Services of Pakistan Armed Forces. He graduated from King Edward Medical College in 1979 and on joining the Armed Forces did Diploma in Surgery in 1980. After his initial training he did FCPS in Surgery in 1986 and after that he got advanced training in Cardiac Surgery at Saint Thomas and Guys Hospital, London UK from 1988-1990.

In his academic pursuits at AFIC/NIHD, he rose from Registrar to Professor in Cardiac Surgery, and has authored more than “30” articles in national and international journals. He has been member and later secretary of faculty of Cardiac Surgery at College of Physicians & Surgeons Pakistan (CPSP) from 1998 till 2005. He also supervised post graduate training of several Cardiac Surgery trainees.

He was Commandant & Executive Director at AFIC/NIHD 2006 to 2008. In 2009 after successfully completion of his M.Sc in Defence & Strategic Studies from National Defence University, he was appointed as Director General Surgery till 2011 and then Surgeon General / Director General Medical Services the ultimate position in Armed Forces Medical Corps a position in which he served till May 2015. He was awarded Hilal-i-Imtiaz (Military) in recognition of his meritorious services and the illustrious military career.
Introduction
Globally healthcare education have been modified and improved over the years. These changes are results of feedback from medical practitioners, staff and students. In IIMC Bachelor of Medicine and Bachelor of Surgery (MBBS) program is an innovative tailored curriculum, purposefully designed to meet the healthcare needs of Pakistan. It is recognized from Pakistan Medical and Dental Council now PMC and extensively accredited by many International medical certification bodies. The quality of our integrated modular system matches the best offered MBBS anywhere in the world.

The program was started in 1996. It is a pioneering degree program integrated with multi-disciplinary clinical trainings which not only allow you to achieve solid scientific understanding, about medicine but also provide you the perfect opportunity to practice appropriate clinical skills and become ultimate leader of your field. The curriculum is taught by our highly qualified expert faculty. The sixteen batches have already been graduated and providing their services in national and global health care industry and many more are yet to go.

Integrated Modular System
IIMC takes pride in selection by PMC for implementing integrated curriculum in MBBS program. Integrated system curriculum is divided into modules. Each module comprises of a specific body system. The curriculum content is spread over two spirals. The first spiral 2 years duration comprises of 13 modules in which 70% content is from basic sciences and 30% from clinical sciences. The second spiral 1½ years duration again comprises of 13 modules but 70% content is of clinical sciences and 30% is of basic sciences. The last 1½ years comprises structured clinical clerkship in various clinical departments, where students are encouraged to undertake hands on practical experience under supervision of experienced faculty.
Outcomes

1. IIMC Graduate will be able to demonstrate essential knowledge of all medical subjects and is able to correlate and apply this knowledge to medical practice.
2. IIMC Graduate will be able to demonstrate skills in cognition, identification and management of common clinical conditions.
3. IIMC Graduate will be able to demonstrate acquired attributes of professionalism and ethical values.
4. IIMC Graduate will be able to demonstrate attributes of a Scientist, Scholar and a teacher.
5. IIMC Graduate will be able to demonstrate knowledge of Community Health, Policy formulation and Governance.

Teaching Methodology

Teaching sessions are student centered. Faculty member is present to correct the mistakes and to add if students have missed something. Faculty prepares and uploads necessary teaching material on “Moellim”, University web based teaching program. This is done before the session starts and is available to students even at home.

The teaching/learning methods/strategies used to promote better understanding are: Interactive lectures, Small group discussions (SGD), Skill Lab, Tutorials, Problem based learning (Discussing Problem which is near to real life situation), Computer assisted learning program, Facilities of Moellim and Self Study Lectures in the College.

In this process the learners are encouraged to consult various learning resources and not only the text books. Beside this early patient contact and clinical reasoning are incorporated to develop high levels of clinical skills and medical knowledge.
Eligibility Criteria:

The candidate should have passed the intermediate science (FSc) examination (medical group) securing at least 65% marks required in FSc pre Medical in aggregate, unadjusted, from a Pakistani university or an equivalent examination of a board of secondary education in Pakistan.

OR

Candidate must have passed, obtaining minimum 65% marks in aggregate in, an examination of a course from a foreign university or examining body or foreign education system with at least three science subjects i.e. biology, chemistry and either physics or mathematics and such course must have been duly certified by the inter-boards. Committee of chairmen (IBCe) as equivalent to higher secondary school certificate (HSSC) or FSc or intermediate level of Pakistan.

Admission for expatriates / International Students

Pakistani nationals living abroad who meet the eligibility criteria mentioned above are eligible to take the entry test. If they do not take the entry test, they can alternatively take the SAT II test with minimum score of 550.

If the medium of instruction in that country is other than English, they will also have to take TOEFL with a minimum score of 500 or IELTS with a minimum score of 5.5.

They are eligible for both open merit seats and the reserved seats for expatriates. However entry test is mandatory for admission on open merit seat.

Note: For International students (Non Pakistanis) more documentation shall be required which is provided on our website. www.riphah.edu.pk

Duration:
5 years

Hearts International Hospital
Near PC Hotel, on the Mall, Rawalpindi

Admission Policy

The admission policy is subject to the guidelines provided by PMC or Ministry of Health from time to time.
Research

IIMC provides a rich environment for cutting edge research in Basic Medical Sciences, Clinical Specialties, Medical Education and Cross Disciplinary research with Bio-Medical Engineering, Information Technology, Rehabilitation and Pharmaceutics. The research Journal of IIMC provides yet another platform for exploring new horizons in basic and clinical subjects.

IIMC has state-of-the-art research labs and equipment for observation and practical research work at both undergraduate and postgraduate level. Beside this more than 100,000 e-books and 2,500 journals in the field of medical education are available on our information portal.
Conferences

IIMC has organized four international conferences in the field of health and medical sciences at home and abroad to promote innovations in curriculum and development of new methodologies. They are also meant to modernize knowledge and publicize latest advances as discovered from subject experts and to help bridge the gap between the developed and developing nations. These conferences bring together individuals and organizations/institutions involved in medical and health professions education to share experiences and challenges. International Conference on Medical Education (ICME) was launched by Riphah International University in 2009 to provide a credible platform for interaction of world renowned experts in Health Profession Education and those from developing countries aspiring to reform Health Profession Education in their countries to bring it at par with international standards. The first conference was held in Pakistan which resulted in recognition of Health Profession Education as a specialty in Medical Sciences and the compulsory establishment of Department of Medical Education in all medical colleges. Encouraged by the response ICME was then organized in other countries undergoing or planning for reforms in Health Profession Education. ICME has so far been organized biennially in Abu Dhabi, Mauritius and Istanbul (Turkey).

- First ICME 2009, organized by Riphah International University, was held in Islamabad.
- Second ICME 2010 was held in Abu Dhabi.
- Third ICME 2013 was held in Mauritius.
- Fourth ICME 2015 was held in Istanbul, Turkey.
- Fifth ICME will be held from 10-14 March 2018 at Abu Dhabi.
- Sixth ICME will be held from 19-22 October 2019, at Islamabad.
- Seventh ICME will be held from 01-04 April 2021, at Indonesia.
**Student Counseling Cell**

Another outstanding feature of Islamic International Medical College (IIMC) is that it provides comprehensive counseling services in order to help the medical students to better deal with their emotional, psychological, behavioral, and academic problems. The Student Counseling Cell of IIMC caters the psychological needs of the students and assists them to resolve intrapersonal and interpersonal difficulties, acquire skills to cope with everyday life problems and challenges, effectively deal with learning difficulties, and facilitate optimal self-growth. Psychometric assessment and counseling services are intended to explore and treat emotional, behavioral, interpersonal, psychological and academic issues of students. Islamic International Medical College is pioneer and a leading institution which is catering for the mental health of the students, employees, faculty and their dependents.

**Extra Curricular Activities**

Extracurricular activities plays an important role in adolescent lives and futures. Exposure to diverse groups can help promote adolescents to become socially intelligent and responsible adults. IIMC provide a wonderful platform to its students to acquire these traits of social responsibility and leadership skills by joining number of student societies during their studies.

- IIMC Art and Craft Society
- IIMC Debating Society
- IIMC Scientific Society
- ISSWA
- Riphah Peace Fort
- IIMC Sport Society
- IIMC Talents Exhibition Society
- IIMC Undergraduate Research Forum
Glimpses of IIMC Life
Islamic International Medical College offers PhD Program in Medical Sciences. IIMC have state of art research labs in al-mizan campus including Molecular and Genetics labs. Another Hi-Tech research lab is available in Riphah Institute of Pharmaceutical Sciences, Islamabad.

In addition we collaborate with other institutions for research such as Army Medical College, AFIP and ASAB of NUST. Clinical Material for research is collected from our own affiliated hospitals, Military Hospital and Combined Military Hospital. Our PhD students are funded by HEC and other National and International Agencies.

IIMC offers PhD in:
- Pharmacology
- Hematology
- Biochemistry
- Chemical Pathology

**Duration**

PhD Program is of two years with four semester’s i.e 48 credit hours.
- Each semester is of 06 credit hours.
- Three semesters for course work and one semester for research and thesis

**Eligibility Criteria:**
- MBBS and MS/ M. Phil with 3.0 CGPA or FCPS/ equivalent degree in relevant discipline from a recognized university/ Institute.
- Shall have to appear in University based test in which qualifying score will be 70% and have to clear the interview.

Grand Total: 48 Credit Hours

FCPS PART-II TRAINING (MEDICAL)
(Recognized by College of Physician & Surgeons Pakistan)

Highly skilled and vastly experienced faculty conducts these programs. Attachments with stipends are available for Fellowship training. Islamic International Medical College and IIMCT Pakistan Railway Hospital are recognized for Fellowship training in following subjects:
- Physiology
- Medicine
- Surgery
- Pediatrics
- Gynecology and Obstetrics
- Anesthesia
- Prosthodontics

Eligibility Criteria:
- MBBS or equivalent as recognized by PMC.
- Fully registered with PMC.
- Must have passed FCPS Part-I examination in relevant specialty.
- Must satisfy selection board of the IIMC for postgraduate studies/training.

Note: for more details please visit IIMCT Complex, Al-Mizan, 274-Peshawar Road, Rawalpindi.
MASTER OF HEALTH PROFESSIONS EDUCATION (MHPE)

The purpose of the Master of Health Professions Education (MHPE) program is to produce effective leaders and scholars in health professions education, who can manage the change & bring reform in medical education at national level and effectively to direct the future health care delivery systems. The Masters of Health Professions Education (MHPE) provides an educational research foundation for teaching, assessment and leadership in health professions education.

The MHPE curriculum comprises of twelve courses which focus on the application of learning principles to educational practice.

The post-graduation in Health Professions Education is a credential for educational leadership.

It is a two years, 04 semester’s 32 credit hours program. Maters in HPE will be awarded on successful completion of 12 Courses (Basic & Advance Level) in semester # 03 and submission of quality Thesis / Dissertation.

Eligibility Criteria:

- All Health Professionals with a bachelor’s degree (minimum 16 yrs of education).
- Minimum basic qualification: MBBS, BDS, DPT, D-Pharmacy and B.Sc Nursing Portfolios.
- Interview, will be taken by the admission committee.
- Be fluent in English as judged in interview.
- Be conversant in using computer and Internet.
- Candidate shall have to appear in university based entry test.

With ever growing needs of patients towards different treatment modalities, Pain Management is now recognized as a multidisciplinary field. This multidisciplinary common field is shared by Pain Management specialists, anaesthesiologists, acupuncturists, physiotherapists, surgeons, neurosurgeons, psychiatrists, medical specialists and members from the faculties of basic medical sciences.

Our Program:
- Provides graduates with the informed and evidence-based ability and skills to manage pain in a variety of settings.
- Is designed to encourage multidisciplinary learning.
- Will equip students with the knowledge and skills to manage pain more effectively.

Eligibility Criteria:
- MBBS or equivalent qualification recognized by PMC.
- Anaesthesiologist (MCPS / FCPS) or those with 3 years experience in anaesthesiology will be given preference.
- FCPS in other specialties (Medical and Surgical Allied).
- Candidate shall have to appear in university based entry test.

MSc PAIN MEDICINE MODULES
There will be four modules in pain medicine program. Summative assessment will be done after each module. Trainee has to pass each module to appear in final exam.

a. Basics of Pain Medicine, Pharmacological and non-pharmacological management
b. Musculoskeletal and rheumatologic pain condition
c. Nerve blocks and neuroablative procedure
d. Education and Scientific Enquiry (Dissertation writing)

Where and How to Apply
An application material containing application form, prospectus and the necessary information, can be obtained from admission office of Islamic International Medical College (IIMC), Rawalpindi.

ACADEMIC SYSTEM
I. Structure and Duration
1) The requirements for the Program shall comprise coursework and thesis. The Program requirements of each Department shall comprise coursework requirement of at least 50 credit hours.
2) All the candidates shall follow the syllabi and courses prescribed by the RIU from time to time that are obtainable from RIU or PGRTC on payment.
II. Student Evaluation
A candidate shall be allowed to appear in the examination if he/she has been on the rolls during the semester, has registered himself/ herself for the courses of study with the RIU; and has attended prescribed lectures and laboratory work and completed the coursework to the satisfaction of the Department duly recorded on log book.

III. Teaching & Methodology.
• Teaching of various courses shall be conducted in the University Departments or the affiliated institutions through lectures, tutorials, discussions, seminars, fieldwork and/or other methods of instructions.
• The teaching shall be in accordance with the coursework prescribed by the Dean, PGRTC, IIMC from time to time.
• As part of advanced studies, RIU will rotate the candidate to other training institutes as advised by the supervisor.

IV. Biannual Progress Report
The Supervisor of MSc student shall submit a detailed progress report after every six months for the consideration of the Advanced Studies and Research Board. In case of two consecutive adverse reports, the Board may cancel the registration of the candidate. The University is authorized to cancel the registration due to poor performance of the candidate at any time of the course.

V. Thesis / Dissertation
• Each candidate shall submit a thesis dealing with concerned speciality or any of its branches. It shall be submitted to the Controller of Examinations on the date fixed for the purpose.
• The thesis must be type written on paper 11" x 8 1/2" with margin of 1 1/2" at each side. Only one side of the paper is to be typed. It shall be bound in cloth/raxine with the name of the author and title on the side cover.
• A student must register for the thesis by the end of the first semester.
• The candidate is required to attend and present at least two seminars on his/her research work during the course of his/her study.

VI. Course Work / Total Credits For Graduation
The course will comprise four semesters of six months each. There shall be an assessment examination comprising written and viva voce, at the end of each semester. A candidate will be required to complete at least 50 credits before appearing for the final assessment at the end of two years. At least 25 of these credits will be completed in first year. The distribution of credits will be as under:

<table>
<thead>
<tr>
<th>S.No</th>
<th>Activity</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>1.</td>
<td>Dissertation</td>
<td>08</td>
</tr>
<tr>
<td>2.</td>
<td>Lectures</td>
<td>1 per 5</td>
</tr>
<tr>
<td>3.</td>
<td>Lectures</td>
<td>1 per 5</td>
</tr>
<tr>
<td>4.</td>
<td>Original research paper published</td>
<td>2 per paper</td>

<tr>
<td>8.</td>
<td>Presentation in a Clinical Meeting</td>
<td>1 per paper</td>
</tr>
<tr>
<td>9.</td>
<td>Pain Camps/Workshop</td>
<td>2 Per Camp</td>
</tr>
</tbody>
</table>

The candidate shall get the topic and the protocol approved at any time after three months of start of course. The completed dissertation shall be submitted six months before the final assessment and approval shall be a prerequisite to appear in the examination. The candidate is required to keep a log book of all the activities in which he or she participate during the course. The lectures on physiology, pharmacology and anatomy of pain shall be attended in the relevant departments of a recognized medical college and the fact shall be endorsed in the log book authenticated by the lecturer and the head of the respective department. The topics to be covered are listed below. The interventional procedures in pain medicine shall be completed in pain clinics/centres recognized by the university. The record of these procedures shall be kept in the log book and should be authenticated by the respective supervisors or heads of department.
M. PHIL (MASTER OF PHILOSOPHY)

IIMC is recognized by Pakistan Medical and Dental Council now PMC to offer following M. Phil courses in:

- Anatomy
- Physiology
- Biochemistry
- Pharmacology
- Histopathology
- Chemical Pathology
- Hematology
- Molecular Biology
- Microbiology

**Eligibility Criteria:**

- MBBS or equivalent as recognized by PMC.
- Fully registered with PMC.
- Must have MBBS examinations with minimum aggregate 60% marks.
- Candidate shall have to appear in university based entry test.
- Must satisfy Selection Board of the IIMC for Postgraduate studies/training.

**Duration**

- M.Phil Programs are of two years with four semesters, ie total 32 credit hours. Each semester is of eight credit hours.
- Three semesters for course work and one semester for research and thesis.

CERTIFICATE IN HEALTH PROFESSIONS EDUCATION (CHPE)

The course is endeavors to train health professionals/teachers in basic concepts and principles of health medical education along with its application at workplace so that they can demonstrate basic competencies of an effective teacher.

The whole course is based on principles of constructive cognitive philosophy and follows the FAIR criteria to improve the learning. According, to constructive philosophy the teacher is more than a transmitter of information and has responsibility for managing the student’s learning. The reflective teacher understands the principles of learning. Hence, this course has four key features identified for effective learning – the FAIR criteria:

- Feedback to the learner as to progress
- Active rather than passive learning
- Interest or motivation of the learner
- Relevance to the perceived and real needs of the learner

This course is designed to develop them as an effective teacher. The students will understand and apply the basic core concepts in medical education while conducting Interactive Lectures, SGD; integrated sessions for instance ‘Problem Based Learning Sessions’ etc, giving feedback to students on their progress and assessing the students for learning. The essential core areas and themes in medical education in which students will be trained are 1) educational environment & students, 2) teaching and learning strategies, 3) curriculum development including educational strategies & curriculum themes, 4) Students assessment and 5) Program evaluation. The course curriculum is structurally organized in these Five Themes.

Pre-requisites:
Faculty of health and medical sciences i.e. medical doctors, dentists, physical therapists, pharmacists, nurses of all levels.

RIPHAH INSTITUTE OF LIFESTYLE MEDICINE (RILM)

Post-graduate Certificate in Lifestyle Medicine (LMPC)

“Certificate Course for Doctors & Allied Health Professionals”

After successfully completing first batch of Lifestyle Medicine Post graduate Certificate Course, RILM is announcing the 2nd batch of LMPC a 6 month Certificate course for Doctors, and Allied health professionals.

Course Goal:
Participants of this program describe a renewed passion for practicing medicine and increased levels of personal daily care especially physical activity leading to reduced stress, as they themselves learn to pay attention to their own health and to serve as role models for their patients of all ages. Better health outcome in patients of all specialties, less complications in terminal patients. Along with better selfcare, better family members immunity, improved relationships and workout is Reported.

Course outcomes
After completion of the course, the participant should be able to:
1. Execute Self-care, family care and global community care
2. Practice Coaching Skills in the field of lifestyle medicine
3. Diagnose root causes of non-communicable diseases.
4. Prevent, reverse and manage non-communicable diseases

Course Highlights:
• Individualized prescription writing
• Synchronized lifestyle modification program
• Lifestyle medicine research projects

Eligibility criteria:
Faculty of health and medical sciences i.e. medical doctors, dentists, physical therapists, pharmacists, senior nurses of all level.

Total course Credit hours: 10 (5 credit hours for 02 Contact Sessions and 3 credit hours for research project, 2 credit hours for CME meetings)

Total duration and Format: 6 months (24 weeks, including contact sessions, research project and comprehensive examination).

Courses/Themes of Lifestyle Medicine Certificate Course:

Course I- Lifestyle Medicine and Global movement
Course II. Science of Coaching
Course III. Chronobiology/Circadian Body clock
Course IV. Synchronized lifestyle modification program
Course V: Lifestyle medicine research project

Director RILM:
Dr Shagufta Feroz

She is an Integrative physician and founder of Synchronized lifestyle modification program, which is a personalized and prescription-based program. She had specialized in Family medicine, done two PhDs from US in Holistic nutrition and Integrative medicine. Her certifications from Harvard university has further polished her leadership qualities. She is Diplomate international board of lifestyle medicine and only Pakistani who is Fellow of university of Arizona in Integrative medicine. She runs her Integrative Holistic care Center in Lahore and Islamabad and help all types of clients with minor or serious ailments throughout the country and abroad. She is the author of the book ‘Living as Nature Intended”. Currently she is contributing as Director RILM.
DIPLOMA IN HEALTHCARE QUALITY
PATIENT SAFETY (DHQPS)

Purpose and Rationale

In Islam, life is sacred, the saving of life is a duty, and the unwarranted taking of life is a grave sin. Qur’an says “whosoever killed a human being - it shall be as if he killed all humankind, and whosoever save the life of one, it shall be as if he saved the life of all humankind” (5:32).

Patient safety is a worldwide public health problem and refers to freedom from preventable injuries produced during medical care; practices or interventions that improve patient safety are those that reduce the occurrence of preventable adverse events.

Decades of detailed investigations have revealed that major patient safety incidents are the result of a combination of minor mishaps, inadequacies and errors that occur throughout social-technical organizational systems. The actions of the individuals who happen to be ‘closest’ to the adverse event are often merely the last link in a very long and vulnerable chain of events.

Hospitals globally are under pressure to ensure Healthcare Quality and Patient Safety. Government is responsible to ensure that Healthcare Quality and safety issues are monitored, but unfortunately there is lack of awareness about vital importance of Healthcare Quality and patient safety practices, in the Hospital Management, Medical and Paramedical staff and patients resulting into sizeable number of easily preventable healthcare Quality and patient safety errors and resulting injuries leading to patient harm in healthcare settings.

Experience shows that while many solutions exist to prevent patient safety hazards, many countries cannot apply them as they are costly or inappropriate to the local context and circumstances. The recommendations for developed countries has focused more specifically on advancing knowledge and organizational factors that lead to unsafe care, such as those related to communication and coordination, human factors and the need to create and support a continuous quality improvement and a patient safety culture.

There is acute shortage hence great demand of Qualified Healthcare Quality and Patient Safety professionals in Pakistan, Saudi Arabia, UAE and
other Gulf countries. Healthcare Quality Directorate IIMCT and Islamic International Medical College have developed Diploma in Healthcare Quality and patient safety in order to develop critical mass of qualified healthcare quality improvement and patient safety professionals who will take lead as change agents and will be able to implement and enhance the culture of safe healthcare practices and healthcare quality improvement in the hospitals and other healthcare establishments in Pakistan and Internationally.

Goals of Healthcare Quality and Safety Diploma Program

Goals of the Healthcare Quality and Safety Diploma program are to:

- Produce healthcare quality improvement and patient safety change agents and professionals, who can initiate, manage and sustain change and develop safer healthcare systems in Pakistan.
- Integrate healthcare quality and safety concepts in the continuum of patients’ care.

Aim

The aim of the curriculum is to:

- Promote a culture of quality and patient safety in hospitals and other healthcare establishments;
- Deliver patient centered care and involve patients and families in care coordination and continuum;
- Facilitate the governing board, administration, clinicians, and support staff in designing and implementing safe care delivery systems;
- Promote interdisciplinary teamwork and communication;
- Initiate, manage, control and sustaining the change in healthcare systems; and
- Develop healthcare quality improvement and patient safety change agents and professionals.

The Healthcare Quality Directorate (HQD) and Islamic International Medical College, IIMCT, Riphah International University, have taken lead by launching Diploma in Healthcare Quality and Patient Safety first time in Pakistan. HQD and IIMC seeks to train leaders for frontline roles in quality improvement and patient safety, establish best practices and research efforts focused on Healthcare quality and Patient safety in Pakistani hospitals.

Outcomes of the Healthcare Quality and Safety Diploma Program

After completion of the Diploma program, the graduates will be able to:

- Understand and advocate for quality improvement and patient safety;
- Become adept at healthcare quality management and performance improvement tools and strategies;
- Use quality data to make changes and monitor performance improvement;
- Facilitate, coach and train team members in healthcare quality and patient safety;
- Produce leaders for developing and implementing best practices in their healthcare system.
- Get excellent employment opportunities for DHQPS diplomates in Pakistani and Middle Eastern countries Hospitals.
**Program Audiences**

This Diploma program is designed for:

Mid to advanced career healthcare administrators, health professionals, Doctors, Nurses, Pharmacists, Rehabilitation and other healthcare professionals working within healthcare settings, academic organizations, pharmaceuticals, health information technology, community organizations, and public/government entities. Preference will be given to Quality and Safety Professionals already working in Quality Departments of Hospitals and other healthcare organizations.

**Entry Admission Requirements**

- To be eligible for admission to the Diploma program, a candidate:
  1. Eligibility criteria for this course is candidates with at least 02 years' experience in any Healthcare setting and Bachelors with 14 years of education
  2. Each candidate shall make an application for admission in response to an advertisement by the University/Department on a prescribed form along with the documents specified in the form.

- The admission to the program shall be made on the basis of cumulative merit to be determined from the previous academic record and interview.

- Anyone who has been rusticated or expelled by a University/DAI or college for misconduct or for use of unfair means in the examinations or for any offence involving moral turpitude shall not be eligible for admission in any program of the University.

The admission committee shall be approved by the Dean on recommendations of the Director Healthcare Quality Directorate IIMCT.

**Duration of the Program and Semester Wise Breakup of Workload/ Credit Hours**

The program is planned for one year duration consisting of two semesters, i.e., total of 16 credit hours. There is possibility of obtaining a Post graduate Certificate in Healthcare Quality and Patient Safety after completing 8 Credit hours course successfully and passing first Semester exam.

Component Courses may be conducted as standalone offerings and credits will be awarded based on successful completion of the course. Anybody who has successfully completed these courses may claim exemption towards Diploma course.

Those who have taken these courses previously credit hours will be honored in the Diploma course at the time of admission on the recommendation of Director Healthcare Quality with the approval of Dean FHMS.

Courses completed on same or related subject in other recognized institutions will be considered for exemption on case to case basis with on recommendation of the Admission Committee and approval of Dean FHMS.

- Each semester is of eight credit hours.
- The teaching will include:
  - 7 days of face to face contact sessions of 8 hours per day
  - There will be two contact sessions in one semester of 07 days each
  - There will be Online submission of project based assignment and end of semester exam.

Program Director:
Prof. Dr. Matiur Rahman
MBBS, DTCD, MCPS, MD, CPHQ, CPPS, HCQM (USA) FiSqua (Ireland)
DIPLOMA IN ANESTHESIOLOGY (D.A)

Riphah International University Islamabad has started a curriculum and training of the Diploma in Anaesthesia (DA), and is designed at its postgraduate level, considering the national and international needs of anaesthetist in the country especially at DHQ THQ levels. These trained doctors will be able to provide improved healthcare facilities at the primary and secondary healthcare levels.

Objectives

At the end of training for DA a candidate shall be able to provide improved healthcare at the level of a primary and secondary care hospitals.

A candidate shall be able to:

• Provide safe anaesthesia to the patients.
• Recognize and manage emergencies during anaesthesia and surgery.
• To provide improved healthcare facilities at the level of primary and secondary care hospitals.

Eligibility Criteria:

1. MBBS or equivalent degree from a recognized college.
2. One year house job in recognized institution.

OR

Practical experience of working in anaesthesia department of a teaching hospital, as medical officer for not less than one year, in lieu of above.

OR

Pre-PG training in anaesthesiology, at the department of anaesthesiology RIU, or affiliated medical colleges, for a period of one year.

1. Registration for DA under RIU.
2. Valid registration with Pakistan Medical & Dental council.

Note: Candidates who had completed two years training in Anaesthesia recognized institute can sit in DA final examination (e.g. graded specialist of Army).

Course

i. The whole course will comprise of two parts viz. Part I and Part II.

ii. The Part I will consist of basic sciences viz. anatomy, physiology, biochemistry, pharmacology, physics, clinical measurements, statistics, resuscitation and equipment.

iii. The Part II will consist of clinical anaesthesiology, intensive care, pain management and related aspects of internal medicine and general surgery.

iv. During the entire period of training, in addition to receiving instructions in theory and practical from the relevant faculties of the RIU, the postgraduate student will be required to work, full time, in the department of anaesthesiology & intensive care at the Railway General & Teaching Hospital Rawalpindi to get the practical training in anaesthesia and will have to follow the schedule of teaching and training given by the department from time to time.

v. The postgraduate students will be required to attend a minimum of 75% of all the lectures, tutorials and practicals individually.

vi. The syllabus and the curriculum will be determined by the board of studies and approved by the Board of Studies & Academic Council of the university.

Examinations

The examinations of Part I and Part II will be held once a year in the month of January.

Note: Detail information is available on website.

TEACHING HOSPITALS

“LEARN BY DOING”

For clinical and practical training four hospitals are affiliated with the College. These are:

- IIMCT Pakistan Railways Hospital, Rawalpindi, administered since 1998. 350 bed tertiary care hospital.
- Riphah International Hospital, established 2014. 167 bed tertiary care hospital.
- Islamic International Dental Hospital, Islamabad, established since 2001. 115 Dental Chairs in different dental specialties.
- Hearts International Hospital, Rawalpindi, established since 1996. 105 bed hospital for delivering high-tech care in cardiology, pulmonology, gastroenterology and many other areas.
IIMCT PAKISTAN
RAILWAYS GENERAL HOSPITAL

It is a unique collaboration of private-public sector partnership in health sector. Under this collaboration, IIMCT has been given full control of Railways Hospital for 66 years. IIMCT provided faculty, staff and high tech equipment to transform this hospital into 350 bed teaching hospital. All major departments i.e. Medicine, Surgery, Gynecology & Obstetrics, Pediatrics and Anesthesia are recognized for FCPS training by College of Physicians and Surgeons Pakistan.

This hospital is a true general hospital for railway employees and general public of the area. This provides rich teaching material for both undergraduate and postgraduate students. To meet the academic needs two lecture theaters and thirteen demonstration rooms were added to the hospital. IIMCT provides completely free health services to Railways beneficiary. It is the only general hospital with department of Physiotherapy and Rehabilitation which is fully equipped and staffed.

The affiliation of PRH with IIMCT has benefited Railway patients by providing better healthcare delivery, but it has also resulted in marked financial relief to Railway in terms of saving of expenditures which would have cost millions of rupees to Railway for providing such healthcare services.
RIPHAH
INTERNATIONAL HOSPITAL

The Riphah International Hospital is located on the main Islamabad Expressway about 1 kilometer from KAK PUL (Bridge), opposite to DHA Phase-II Islamabad.

The hospital comprises of male & female medical wards, children, medical ward, consultants OPD block, general OPD block, male & female emergency, dental department, lab and diagnostic department, male & female Surgical blocks, Gynae and Peds surgical block. First floor consists of ICU, labor & delivery, NICU, three operating rooms, main recovery, male & female prayer areas and coffee shop.

The total covered area of the hospital is 45000 SQF. The scope of services (Phase-I, started Jan, 2014) was OPD consultations (Gynae Obs, Medicine, Surgery, Peds, Eye/ENT and Dermatology). Emergency / Ambulatory care services, OT, Labour, ICU, NICU and in patient services, routine Pharmacy services, Basic lab, Blood bank and diagnostic services and free medical camps to the surrounding community through Riphah Social Welfare Department. For invasive diagnostics and major procedures and admission patients are referred to IIMCT Pakistan Railway Hospital.
HEARTS INTERNATIONAL HOSPITAL

Hearts International Hospital is a general hospital which provides medical services to their patients. It is located in Rawalpindi, Pakistan. It provides sustained standards in field of medicine and surgery.

It is equipped with best medical technology and contains all types of departments for health and care. It prides itself in undertaking neurosurgery, cardiac surgery invasive radiology and in all other health care delivery including MCH, Medicine and surgery.

Hearts International Hospital has highly experienced trained and extremely competent specialist in general surgery, cardiac surgery, neurosurgery, medicine, oncology, nephrology, pulmonology, paediatrics and gynecology.
Islamic International Dental College (IIDC) was established in 2001 and is affiliated with Riphah International University Islamabad.

The college is recognized by PMC (Successor of Pakistan Medical and Dental Council). It offers 4 years degree program of BDS (Bachelor of Dental Surgery). In addition to the undergraduate course, IIDC offers postgraduate courses in departments of Orthodontics, Operative Dentistry, Oral & Maxillofacial Surgery and Prosthodontics accredited by College of Physicians and Surgeons Pakistan. IIDC also offers MDS program in Orthodontics, Operative Dentistry and M.Phil Dental Material recognized by HEC and PMC.

IIDC has always placed strong emphasis on clinical and teaching excellence. It also stresses on the importance of basic and clinical research and offers opportunities and facilities for training in a variety of disciplines relevant to the biological, material, clinical and Epidemiological sciences.

**Accreditation:**

- IIDC is recognized by PMC for 75 students in BDS annually.
- Sixteen batches of IIDC have already been graduated and are registered with PMC.
- Islamic International College Dental Hospital (IIDH) is recognized for house job for its own graduates.
- It is recognized for training by the College of Physicians and Surgeons, Pakistan for FCPS Part-II in Orthodontics, Operative Dentistry, OMFS (Oral & Maxillofacial Surgery) and Prosthodontics.
Prof. Dr. Ulfat Bashir
Principal IIDC
BDS , MCPS , FCPS, MHPE

Prof. Dr. Ulfat Bashir received his BDS degree in 1994 from de’Montmorency College of Dentistry, Lahore (University of Punjab). He did MCPS (Orthodontics) in 2000 & later completed his FCPS (Orthodontics) in 2002 from College of Physicians & Surgeons, Pakistan.

He has vast experience in the field of academics, curriculum development and hospital services. And recently qualified masters in Health Professional Education from Riphah. He has produced a number of specialists/consultants in the field of Orthodontics. He is an author of many national & international publications.

He is the member of different professional and social societies. He has attended and presented at many national & international conferences. Presently he is the Editor in chief of Pakistan Orthodontic Journal, President Pakistan Association of Orthodontists and Vice President Federal zone for Pakistan Dental Association.

Prof. Dr. Ulfat Bashir has been nominated and awarded “The Best Teacher 2013” award by Higher Education Commission (HEC).
Islamic International Dental College is offering undergraduate four years degree program, Bachelor of Dental Surgery (BDS), followed by one year house job.

First batch of BDS students graduated in 2005 and till now 16 batches have been graduated. Our students are working nationally and all around the globe. In the beginning college started as part of medical college at Al-mizan Building, 274- Peshawar Road, Rawalpindi, and now it is located in its exclusive building at 7th Avenue, G-7/4, Islamabad, apart from being fully equipped 115 dental chairs hospital.

**Program Outcomes:**

PO1: diagnose and manage common oral and dental problems in the community. (Knowledge)

PO2: practice general clinical dentistry. (Skill)

PO3: identify, formulate and provide innovative and effective solution to oral health problems (Critical thinking)

PO4: interact effectively with patients, peers and community. (Communication)

PO5: engage effectively with colleagues and function independently or as a team member. (Team member)

PO6: function according to the conduct and expectation of the profession. (Professional ethics)

PO7: engage in lifelong learning for professional development. (Lifelong learning)

PO8: attain entrepreneurship skills for career development. (Business concept)

PO9: develop and demonstrate effective leadership (Leadership)

PO10: develop basic research methodology skills to practice evidence based dentistry effectively (Research)

PO11: effectively act as dental health promoter (Community advocate)

**Eligibility Criteria:**

The candidate should have passed the intermediate science (FSc) examination (medical group) securing at least 65% marks in aggregate, unadjusted, from a Pakistani university or an equivalent examination of a board of secondary education in Pakistan.

OR

Any other examination of a foreign university or examining body (A levels etc.) which in scope and standard is found equivalent to the intermediate science F.Sc (Pre Medical Group) examination (medical group) of a Pakistani university or board of secondary education. Such candidates will have to furnish, along with their application, an equivalence certificate from the inter-board chairman of committee (IBCC). However, equivalence certificates of such applicants will not be accepted who have not studied physics, chemistry, biology and English in 11th and 12th grade.

**Admission Policy**

The admission policy is subject to the guidelines provided by PMC or Ministry of Health from time to time.

**Admission for expatriates / International Students**

IIDC is one of the pioneers in implementing PMC recommended modern modular system that is ingrained with concrete Islamic values and conforms to international standards. The college offer comprehensive postgraduate programs as well.

**Note:** For International students (Non Pakistanis) more documentation shall be required which is provided on our website. www.riphah.edu.pk
4 years

Available Seats:
College is accredited for 75 students

Class Timings:
Monday to Friday
(8:00 am to 3:00 pm)
Clinical: Monday to Saturday
(8:00 am to 2:00 pm)

College Location:
7th Avenue, G-7/4 Campus, Islamabad.

Affiliated Hospitals:
Islamic International Dental Hospital
7th Avenue, G-7/4, Islamabad.
Pakistan Railway General Hospital
Westrige, Rawalpindi.
Riphah International Hospital
Sihala, Zone V, Islamabad.
General Pathology laboratory for the pathologic evaluation of human tissues in line with the modern and up to date practices.

Bio-Chemistry laboratory, the undergraduate dental curriculum requires the development and use of unique and sophisticated techniques and instrumentation.

Anatomy and Histology Laboratory is equipped with the models and microscopes for the proper teaching of undergraduate dental students along with the state of the art 3D virtual dissection table with proper licensed software.

Physiology Laboratory is equipped with tools and instruments required for the students practice in line with the latest modular curriculum.

Skill Laboratory: Phantom head Laboratory, is the most important resource for a dental college; as this resource is used to practice and refine dental procedures before advancing onto real live patients. This state of the art skill lab is in line with the requirements of Modular curriculum.
Oral Pathology: This laboratory has all the necessary tools and equipment to diagnose any oral anomaly through tissue samples, and to teach the third year dental students the practical knowledge implied in the subject of Oral Pathology.

Research gala: Poster competition of the research articles by the dental students is held every year as part of training and encouragement to instill competition among the students.

Annual Function: Position and distinctions holders are awarded certificates of merit along with the official farewell to the Final year BDS students is held every year for the encouragement of students.

THE LATEST EQUIPMENT ADDED:
- 3D CBCT
- The Soft Tissue Laser
- Bio art Brazilian Face bows & Hanau Articulators
- Latest Dental Units
The orthodontic postgraduate program at Riphah International University provides a combined clinical experience in orthodontics with a critical thinking and research experience that leads to a Master of Dental Surgery conferred by Riphah International University. Students in the advanced orthodontic education program are required to demonstrate clinical and professional proficiency as well as complete the didactic and research components of the MDS degree prior to graduation.

Program Description:
The Department of Orthodontics offers a 4 years, 93 Credit Hours program. Our full-time and adjunct attending faculty provide instruction in the latest and quite diverse approaches to clinical care and supervise treatment of a wide variety of orthodontic patients, including patients with complex craniofacial or developmental skeletal disharmony problems. The postgraduate program is designed to develop skilled practitioners who understand and are familiar with contemporary techniques and who can critically and scientifically evaluate clinical challenges and innovative treatment approaches in the future.

The curriculum is composed of seminars and small-group instruction with emphasis on critical thinking and problem solving. Contemporary concepts of orthodontic treatment are reviewed for substantive and scientific content, in which students participate in regularly scheduled orthognathic surgery, craniofacial, and interdisciplinary conferences. It also include an extensive practice management seminar series. The successful completion of a research project and defense of a thesis is required for the receipt of the MDS Degree.

Class Timings: Monday to Saturday
(8:00 am to 2:00 pm)

Eligibility Criteria:
BDS, degree or its equivalent in the relevant discipline from PMC & HEC recognized University and Institution. For further details visit www.riphah.edu.pk
MDS OPERATIVE DENTISTRY

The operative dentistry postgraduate program at Riphah International University offers an educational experience which combines the theoretical and the clinical practice. It is primarily a research-oriented degree which seeks to explore improved methods of patient care in restoration dentistry. Students selected for the program receive training in research methods and evidence based restorative dentistry.

Program Description:
The Department of Operative dentistry offers a 4 years, 96 credit hours program. The full-time and adjunct attending faculty provide instruction in the latest and quite diverse approaches to clinical care and supervise treatment of operative dentistry patients, patients requiring a wide variety of complex restorative and endodontic treatments. The postgraduate program is designed to develop skilled practitioners who understand and are familiar with contemporary techniques and who can critically and scientifically evaluate clinical challenges and innovative treatment approaches in the future.

The curriculum is composed of seminars and small-group instruction with emphasis on critical thinking and problem solving. Contemporary concepts of operative dentistry treatment are reviewed for substantive and scientific content and students participate in regularly scheduled operative dentistry surgery and interdisciplinary conferences. Also included is an extensive practice management seminar series. The successful completion of a research project and defense of a thesis is required for the receipt of the MDS Degree.

Class Timings: Monday to Saturday
(8:00 am to 2:00 pm)

Eligibility Criteria:
BDS, degree or its equivalent in the relevant discipline from PMC & HEC recognized University and Institution. For further details visit www.riphah.edu.pk
M. PHI L DENTAL MATERIALS

This program is designed to prepare specialists in the field of dental materials, which will improve the teaching faculty in basic sciences of dentistry.

This course will cover comprehensively the understanding of all materials used in dentistry, along with the knowledge related to the field of Biomaterials. The course will also cover topics pertaining to the general properties and characterization of materials. Research methodology, Biostatistics and paper writing are also included as compulsory modules of this course.

The objective of this course is to broaden the knowledge of dentists in the field of dental materials, involving comprehensive detail of material characterization and properties, composition, clinical handling and all possible variables involving the way they interact with the environment in which they are placed.

Program Description:
The program is of 2 years in duration with a total of 32 credit hours. There would be a total of 4 semesters each carrying 8 credit hours. One credit hour equates to 15 hours of contact sessions. Hence a 4 credit hour module/course would have 60 hours of seat time, judiciously recorded in the graduate student log books.

Class Timings: Monday to Friday (8:00 am to 3:00 pm)

Eligibility Criteria:
To be eligible for admission to M. Phil, a candidate having BDS, degree or its equivalent in the relevant discipline from PMC & HEC recognized University and Institution.

Duration of Course:
The minimum duration of M.Phil (Science of Dental Materials) course is two years. The duration of course can further be increased by the Board of Studies of Dentistry. The course is divided into two phases; The phase-I and phase-II are spread over one year each. The Phase-I & II are separated by intermediate evaluation.

Admission Criteria
i. B.D.S.
ii. One year house job
iii. Recommendation of the Supervisor / Entry Test.
iv. Credit for marks in Professional Examinations, additional experience and Published Research.
FELLOWSHIP PROGRAMS

FCPS PART-II TRAINING (DENTISTRY)

Attachments with stipends are available for Fellowship Training in Islamic International Dental College and Hospital (IIDC-H) in the following specialities with laid down procedure.

- Orthodontics
- Operative Dentistry & Endodontics
- Oral & Maxillofacial Surgery
- Prosthodontics

PARAMEDICAL PROGRAMS

1 Year Certificate in
DENTAL SURGERY ASSISTANT
Eligibility: Matriculation

2 Year Associate Degree in
DENTAL HYGIENIST
Eligibility: FSc with minimum 45% Marks

1 Year Certificate in
DENTAL LABORATORY TECHNICIAN
Eligibility: Matriculation

2 Year Associate Degree in
DENTAL LABORATORY TECHNICIAN
Eligibility: FSc with minimum 45% Marks

STUDENTS SOCIETIES

Literacy and debating society
Vision: Speakers are not born, they are made. We believe in dissemination of infallible dialogues with strong and verified quotations, articles, and pretense. We aim to rouse a speaker not just with considerable old school of thoughts and actions but rather make them work on the modus of new fangled thinking, enhancing their spirit to the most. The focus of our society is to enhance the orating and public speaking skills.

Mission: Our mission is to create good confident speakers to improve their confidence, communication skills, and enhance their language proficiency and create speakers and writers for the future.

IIDC Research Society
Vision and Mission of the Society
To develop an evidence-based research culture among the students of IIDC.

To nurture the innate curiosity in young minds for the greater good of humanity.

Talent Exhibition Society
Vision:
To facilitate students of IIDC in organization of events to exhibit their various talents.

Mission:
A fulfilled personality is one that has experienced different aspects of life, among which self-expression is the most important one. It has been proven to play a key role in development of emotional resilience and inter-personal skills which are necessary for leading a successful life. Our mission is to encourage students of IIDC for exhibition of various talents and organizing fun activities that help to increase emotional resilience and polishes inter-personal skills in Muslim youth.

Arts & Craft Society
Vision:
Promote holistic development of students by enhancing their creative thinking and emotional & social skills, in alignment with international educational curriculum.

Sports Society Riphah International University
“Sport has the power to change the world. It has the power to inspire. It has the power to unite people in a way that little else does. It speaks to youth in a language they understand. Sport can create hope where once there was only despair.” (Nelson Mandela)
Sports has a unique ability to bring us together in such a way that allows us to transcend our differences and find common ground.

The vision of the sports society is to promote and provide playing opportunities to individuals at all abilities and ages and to enhance the sporting experience of students. Foster and provide a high quality sports environment in order to give the students every opportunity to enjoy, be physically fit and develop sportsmanship spirit and to help them achieve their maximum potential as participants in different sports, while at all times promoting a sense of fair play.

Riphah Alfalah Society
Vision:
Choices, good or bad, are what make us human. Our power to choose, our free will is what makes us superior. In this world, we choose to become what we are and so these choices play a significant role in what we are and what we become.
Vision of Riphah Alfalah Society is to join hands together and make our choices count!

Mission:
The aim of the society is to arrange Islamic lectures for students in the University, to collect donations, arrange free dental camps, blood donation drives and help the people who are in need in any way possible.
